Electric Height  
Adjustable Desks

Concorde™ creates outstanding environments for people at work.

## Concorde™ Commercial Office

### Electric Height Adjustable Desks

Criterion understands that ergonomics, durability, comfort and contemporary aesthetics are vital to today's office workspace.

To further enhance the Concorde™ Commercial Office range, Criterion introduces the Concorde™ Electric Height Adjustable Desks. The desks can be height adjusted from 685mm to 1205mm high by an electric touch pad control. This makes it possible for differing users to use the same desk without compromising comfort. It accommodates varying body postures, improves circulation and relieves back and other body strains caused by sitting or standing for prolonged periods during the day.

The desk's height adjustability and streamlined metal legs offer unobstructed access and are ideal for those who work in shared environments.

The Concorde™ Commercial Office range includes a wide variety of workstations, desks, mobiles, storage systems, privacy screens and accessories.

The Concorde™ Commercial Office range is proudly made in New Zealand by Criterion. Criterion has ISO9001 and Enviromark Platinum accreditation. The range is also backed by Criterion's 5-Year Warranty.

**Model OD725**  
1800 Desk with Metal Legs  
Unit Dimensions:  
1800mm W x 795mm D x  
685-1205mm H
